

U.S. DEPARTMENT OF THE INTERIOR
**BUREAU OF LAND
MANAGEMENT**

2022 Pancake Complex Wild Horse Gather

The Bureau of Land Management's Battle Mountain District, Tonopah Field Office and Ely District, Bristlecone Field Office concluded the Pancake Complex Wild Horse Gather on February 14, 2022.

Details of Gather

The BLM will utilize the services of a helicopter contractor to gather up to 2,060 horses and remove up to 2,030 excess wild horses. Up to 30 previously treated mares will be treated with a population suppression vaccine and released back to the range. During the gather, the BLM will collect information on herd characteristics and determine herd health.

Purpose of Gather

The purpose of the gather is to prevent undue or unnecessary degradation of the public lands associated with excess wild horses, to restore a thriving natural ecological balance and multiple-use relationship on public lands, consistent with the provisions of Section 1333(b) of the 1971 Wild Free-Roaming Horses and Burros Act. Removing excess animals would also enable significant progress toward achieving the Standards for Rangeland Health identified by the Northeastern Great Basin Resource Advisory Council.

The action is also necessary to reduce overpopulation of wild horses within and outside the Complex, where there currently is not enough water and/or forage to support the number of horses in the area, and to prevent further degradation of public lands by helping to balance herd size.

Public Observation

Members of the public are welcome to view the gather operations, provided that doing so does not jeopardize the safety of the animals, staff and observers, or disrupt gather operations. The BLM anticipates that viewing opportunities will begin on or about January 11, 2022, weather and logistics permitting. Please review the "Know Before You Go" and "Visitation Protocol and Ground Rules" documents, located on the right-hand side of this page, before planning to attend.

All media and/or visitors wanting to attend gather operations as an observer must RSVP to 775-296-0679 by 5:30 p.m. the night before the intended observation date. They will receive a call back no later than 9 p.m. with the observation schedule, meeting time and location. A Public Affairs Officer and/or a Law Enforcement Officer will meet the public each morning at the pre-determined meeting location, to escort the group to and from the gather observation and/or holding sites. Observers must provide their own transportation. The BLM recommends a four-wheel drive, high clearance vehicle with spare tires and extra can of gas.

Adoption Information

Horses identified for removal will be transported to the Indian Lakes Off-Range Wild Horse and Burro Corral, in Fallon, Nev.; Palomino Valley Wild Horse and Burro Center, in Sparks, Nev.; and Sutherland Off-Range Corral in Sutherland, Utah, where they will be checked by a veterinarian and readied for the BLM's wild horse and burro adoption program. Those that are not placed into a new home will be cared for in off-range pastures, where they live off the rest of their lives on grass pastures. For information on how to adopt a wild horse, visit www.blm.gov/whb.

Background

The Pancake Complex, about 30 miles west of Ely or 80 miles northeast of Tonopah, Nev., consists of the Sand Springs West and Pancake Herd Management Areas (HMAs), Jakes Wash Herd Area (HA) and Monte Cristo Wild Horse Territory (WHT). The BLM Battle Mountain District, Tonopah Field Office administers the Sand Springs West HMA. The BLM Ely District Office administers the Pancake HMA and Jakes Wash HA. The Humboldt-Toiyabe National Forest, Ely Ranger District administers the Monte Cristo WHT. The gather may also take place in areas outside the Complex where wild horses have moved in search of food and water and are creating a public safety hazard by traveling across roads and highways.

The current population estimate for the Pancake Complex is 3,244 wild horses, excluding the 2021 foal crop. Appropriate Management Level is 361-638 wild horses. AML is the level at which wild horse populations are consistent with the land's capacity to support them and other mandated uses of those lands, including protecting ecological processes and habitat for other resources.

Access the decision record and determination of National Environmental Policy Act adequacy at <https://eplanning.blm.gov/eplanning-ui/project/2003386/510>. For more information on the Wild Horse and Burro Program, call 1-866-468-7826 or email wildhorse@blm.gov

Daily Gather Reports

Monday, Feb 14

Summary: Gather operations concluded.

Animals Gathered: 0 (0 Stallions, 0 Mares, and 0 Foals)

Animals Shipped: 44 (23 Stallions, 20 Mares, and 1 Foal)

Animals Treated with Fertility Control: (0 Stallions, 0 Mares)

- PZP-22: 0 (0 Mares)

- GonaCon: 0 (0 Mares)

Animals Released: 6 (3 Stallions, 3 Mares, and 0 Foals)

Deaths: 0

- Sudden / Acute: 0

- Pre-existing / Chronic: 0

Sunday, Feb 13

Summary: Final day of gathering operations; final shipping planned for tomorrow. High 58 Low 41

Animals Gathered: 25 (14 Stallions, 10 Mares, and 1 Foal)

Animals Shipped: 48 (17 Stallions, 18 Mares, and 13 Foals)
